Driver Training & Automotive School

Established for over three decades in northern New Brunswick, this training institution enjoys an irreproachable reputation and a leading position in its local market. Specializing in certified educational services and driver training, the company relies on a very sound operating structure and well-established processes.

Thanks to its long-standing presence and the recognized quality of its programs, the business benefits from a steady and predictable flow of new students. Its business model, characterized by low fixed costs and solid profitability, ensures a fast and secure return on investment for a buyer.

The business operates from strategic locations that fully comply with industry regulations. The sale includes all operational assets, the established brand, a smooth transition provided by current management, as well as the vehicles required for student instruction.

Key Highlights & Growth Opportunities:

- **Exceptional History:** In operation since 1994, a proven sign of trust and financial stability.
- **Solid Market Position:** Excellent local reputation with recurring client flow without major advertising efforts.
- **High Profitability:** Low-cost structure providing strong seller discretionary earnings.
- **Expansion Potential:** Opportunities to broaden course offerings (e.g., corporate training, specialized refresher courses, integration of new simulator technology) and expand geographic coverage into neighboring regions.
- **Immigration Drive:** High demand driven by immigrant students adds directly to the recurring client pipeline.
